

Quail Hollow Ranch 1975 – north is up, east is right

Changes from 1956 photo:

- Trees and shrubs beginning to fill in pastures and orchards
- Willows are starting to grow around the northwest side of the pond
- Most of the old orchards are gone; only the small orchard (partially obscured by the shadows of the Eucalyptus) north of the ranch house still exists
- The Sunset trail near the top of the photo is very distinct, after being widened and partially rerouted by the Owens family
- The Italian trail, below Sunset trail, is becoming a little overgrown for use by autos; but still good for hikers and equestrians
- The sand quarry (opened in 1972) on the bottom left now exists
