

# **SANDRA CHERK**

***Pastel Paintings • August 7 - October 2, 2019***

Sandra is a native Californian whose art is inspired by the landscapes of her home- the forests, ocean, and open hills. She also stays in Greece for extended periods, in a village close to the mountains and sea. The rich colors and workability of soft pastels allow Sandra to develop landscapes with her trademark softness, serenity and depth.

"I am struck by the atmosphere, interplay of sunlight and shadows, natural compositions in the scenery. I strive to create images you can walk into, and feel the spirit of the place."
