

# SOPHIE WEBB

*Acrylic Paintings • March 15 - May 27, 2019*

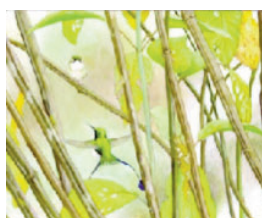

Sophie Webb has travelled from the Antarctic to the Arctic and numerous places in between to both draw and study birds. She has broad knowledge of birds and other wildlife, but seabirds and marine mammals are one of her main areas of expertise. Having worked on numerous research vessels as a bird observer and or marine mammal observer for National Oceanic and Atmospheric Administration, US Fish and Wildlife Service, and a variety of non-profits, she ended up coauthoring and illustrating a *Field Guide to the Marine Mammals of the Pacific Coast*. Webb has also written and illustrated three published children's books, including the award-winning *My season with Penguins*. Webb also co-authored and illustrated a *Guide to the Birds of Mexico and Northern Central America*. She continues to contribute illustrations to a variety of bird guides, books and magazines. One of her favorite pastimes is to sketch wildlife in the field and train and compete in agility with her two pups, Daiya and Cashew.

**Coronet & Heliconia**  
Acrylic on Masonite  
\$600

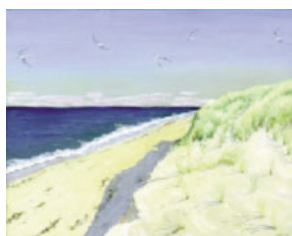

**Avifaunal Changes sextet**  
Acrylic on Masonite  
\$2000
