

# Introducing: Edible Landscaping!

Interested in adding edibles to your home landscape? It's easy (mostly) and fun. Whether you live in an apartment, in a home with a small yard, or a multi acre property, we will share ideas for growing food around your home that you and others can enjoy. Designed for beginner and intermediate gardeners, this course will cover introductory topics including: why to do it, why not do it, how to do it, and what to plant. We'll provide ways to add a single edible to your existing landscape, add edibles to container gardening, and creating a small 100 sq ft patch. Instructors: Betsy Allen and Judith Connor, both Monterey Bay Master Gardeners. For ages 16+. Please arrive 10 min. early to sign in.

**When:** Sunday, February 24, 1-3 PM

**Where:** Quail Hollow Ranch County Park  
800 Quail Hollow Rd., Felton

**Cost:** \$3.00/person
