## Science Sleuths

The best scientists are the ones who are curious about their world. Join the staff and volunteers of the popular Science Sleuths for hands-on, fun-filled science experiments and engaging wildlife studies. Physical and life sciences are combined as 6 to 11 year olds explore, discover, and learn about chemistry, physics, geology, biology, botany, and ecology through experiments, microscope viewing, predator-prey games, nature art and more.

Appreciation of the natural world is emphasized while unlocking the scientific secrets that are found in Quail Hollow Ranch's natural world. This year's "Micro to Macro" theme will address observations of the microscopic world up to the macroscopic world and beyond.

Additional activities include exciting field trips, visits to closed portions of the park, active and engaging games, and arts and craft activities. Program fees include field trip admission and transportation, guest speakers, all supplies, and a camp t-shirt.

## Time Travelers

Have you ever wondered what it would be like to travel back in time? Find out in this innovative day camp for children ages 6 to 11 years. California history and life science are combined, providing hands-on, fun-filled, educational activities that allow children to experience times past.

This year's "Story" theme will address history as "the telling of true stories." Activities include dressing in historical attire; enjoying historic food, crafts and games, and recreating cultural activities of times past, as well as exciting field trips and visits to closed portions of the park. Program fees include field trip admission and transportation, guest speakers, all supplies, and a camp t-shirt.

## Culinary Arts & Food Science

Calling all budding chefs and food fans! Here's your chance to spend a whole week cooking with popular science and cooking instructor Phyllis Endicott. Students will enjoy fun, engaging, and hands-on activities as they prepare a variety of entrees, deserts, and drinks, using fresh local ingredients. Discover techniques in mixing and measuring, cooking and baking, kitchen and food safety, knife skills, culinary chemistry, kitchen vocabulary, food facts and a brief history of cooking.

Recipes will be tailored to the needs and desires of students. In addition, options for those with allergies, diabetes, or other food related issues will be included. We will provide a recipe book covering everything we prepared and more at the end of camp.
